Re: Amended Notice of Intention to Commence Small Mining Operations, Monoclinic #1
- Triangle, S/037/085, San Juan County, Utah

Dear Mr. Harrison:

Thank you for your amended Notice of Intention to Commence Small Mining Operations, received by the Division on January 30, 1995. The application for the proposed Monoclinic #1 - Triangle, located in Sections 27, 28 and 33, T29S, R24E, SLBM, is complete and no additional information is required at this time.

This amendment (1) decreases the original proposed disturbance from 3 acres to 2 acres, and (2) adds a 2 acre area to the north in the Triangle claim. The total disturbance proposed for this project is now 4 acres.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

A handwritten signature in cursive script, reading "Anthony A. Gallegos". The signature is written in dark ink and is positioned above the printed name and title.

Anthony A. Gallegos
Reclamation Engineer
